U Moe Myint has over 40 years of experience working in the fields of aviation, aerospace, and energy, both in Myanmar, Asia Pacific, and the United States. He is the founder and Chief Executive of the MPRL E&P Group of Companies which employs a combined work force of over 1100 direct employees and over 1200 indirect employees. The MPRL E&P Group of Companies have been the leader in the energy sector of Myanmar for nearly the past three decades. The flagship company and upstream petroleum exploration and production arm of the group, MPRL E&P Pte Ltd., was founded in 1996 and boasts an asset portfolio consisting of five onshore and three offshore assets, all located in Myanmar. MPRL E&P Pte Ltd has also forged strong partnerships with world-class energy companies consisting of Woodside, Eni, Total, and Shell, and continues to be at the forefront of unlocking the nation's much anticipated energy resource potential, necessary to enable the unprecedented growth expected of Myanmar in the years to come. Myint & Associates Company Ltd. was the first Myanmar company to provide to oil and gas operators and their main contractors, services such as catering, logistics, construction, and manpower supply in the country. Founded in 1989, Myint & Associates continues to hold the majority of market share in the energy sector in Myanmar with regard to the services that it provides. Asia Drilling Pte Ltd. and Myanmar Independent Power Production Ltd. are companies founded in 2009 and 2012 respectively, and leads the MPRL E&P Group of Companies' drilling contracting, liquefied petroleum gas, and power generation initiatives.

Beyond the energy sector and as the country underwent a political transition into a quasi-civilian government in 2011, U Moe Myint also ventured into real estate development as well as information technology sectors. Myint & Associates Construction Company Ltd. is the property development arm of the group and has a development portfolio of projects consisting of the Ngwe Saung Yacht Club & Resort, the only five star resort in Ngwe Saung Beach, Myanmar, as well as Vantage Tower, Myanmar's first Grade (A) commercial office property. Vantage Tower is one of the most well recognized commercial office properties in Yangon and was awarded the awards for Best Overall Commercial Property, Best Office Property, and Best Office Architecture during the 2015 Myanmar Property Awards. Myint & Associates Telecommunications Ltd. is the information technology arm of the group and is the developer and operator of M&A Data Center. Operational since 2015, M&A Data Center is the country's first and only Uptime Institute accredited Tier III data center that currently provides colocation, cloud computing, and hosting services to both local and international private enterprise, as well as to the government.

U Moe Myint was born in Yangon, Myanmar in 1952. U Moe Myint attended Methodist English High School in Yangon, up to 8th Standard, and graduated high school from Ruam Rudi International School in Bangkok, Thailand. U Moe Myint attended Marshall University in West Virginia and the University of Yangon and holds a Bachelor of Science degree in physics. He was inducted into the Hall of Fame of Marshall University Lewis College of Business in 2016. After his graduation and before venturing into the energy industry, U Moe Myint first became a commercial airline pilot and served for the only national flag carrier, Burma Airways, for over 12 years and accumulated nearly 13,000 flying hours, during which he was also actively involved in training other pilots in utilizing various flight simulation devices. Upon electing to take early retirement from public service at the age of 35, U Moe Myint moved to California, USA, where he worked as Vice President at Interaero Inc. and Emro Engineering Inc., both companies of which were involved in the manufacture and export of dynamic motion flight simulators, parts, and equipment for high performance aircraft.

U Moe Myint is also the founder of U Moe Myint & Family's Education Foundation which provides middle school, high school, and university students from Myanmar with scholarships and grants to best enable their learning and educational advancement. Scholarships have been provided to Myanmar students who have obtained their university degree both in Myanmar as well in other countries such as Thailand, Singapore, Malaysia, Australia, and the United Kingdom.

For the past twenty eight years, U Moe Myint is the sole sponsor and promoter of the sport of sailing in Myanmar. He currently serves as the President of the Myanmar Yachting Federation, the Past Commodore and Honorary Life Member of the Yangon Sailing Club (a club founded in 1924), Founder and Patron of the Myanmar Optimist Dinghy Association, and a member of the Myanmar National Olympic Committee.
